

Reaction-Diffusion Computing: Mathematical and Experimental Approaches

Date: Jan.20(Wed), 2016

Venue: Nakano campus room 603, Meiji University

Program

- 13:30-13:35 Opening
- 13:35-14:35 **István Lagzi** (Budapest Univ. of Technology and Economics)
"Solving mathematical problems
with chemistry and physics"
- 14:40-15:40 **Tatsunari Sakurai** (Chiba Univ., Japan)
"Image processing by a discrete reaction-diffusion
system with strong inhibitory coupling"
- 15:45-16:45 **Rita Toth** (Empa, Switzerland)
"Nonlinear chemical systems in computing and
material science"
- 16:45-16:50 Closing

Organizers: K. Suzuno, N. J. Suematsu and D.Ueyama (Meiji Univ.)

The conference will be supported by
MIMS Joint Research Project for Mathematical Sciences
"A Model-Aided Analysis of Chemical Computing",
the Japan Society for the Promotion of Science (JSPS) through
the Grant-in-Aid for challenging Exploratory Research (No.25610036),
Meiji Institute for Advanced Mathematical Sciences (MIMS), and Meiji University.

Meiji Institute for Advanced Study of
Mathematical Sciences,
8F High-Rise Wing, Nakano Campus,
Meiji University,
4-21-1 Nakano, Nakanoku, Tokyo, Japan.

MEXT Joint Usage / Research Center
"Center for Mathematical Modeling and Applications"

**Meiji Institute for Advanced Study of Mathematical Sciences,
Meiji University**
